To our valued and potential clients,

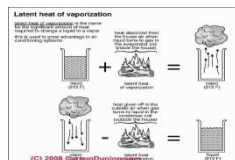

We would like to serve our professional services in preparing an account, submission and consultation of tax planning regards to tax purposes.

Our services are recognized by IRB especially in managing services, trading.

To owner of business need to gain our professionalism in :

a) Recognition in calculating evaporation cost

In calculation of tax computation of oil and gas station we have recognized the evaporation cost. Wikipedia stated that evaporation cost will be burden by station because a liquid form of a chemical substance will be turn out into gaseous form/vapour.

b) Introducing of zakat system

Tax payer will be appreciated for lower tax by some strategies of tax planning.

We are encouraging you to make a payment of zakat. Zakat will be deductible for Year Assessment.

Zakat centre has introduced Wakalah programme. This program given an opportunity to payer distributed some amount to certain classification of people.

c) Contribution salary to the partner

Some business does not declare a salary to the partner.

Partner salary usually declared in individual business. Declaration this salary means a business have been managed properly.

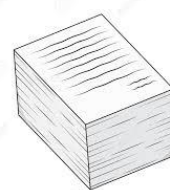

Submission of partner salary who received will be declared and submitted before 30 April every year. Besides, an owner also been recognized their salary tax return form.

d) Strategies of tax planning

We will strategize and planning a paperwork to tax payer to obtain a benefit not only for individual but for business and company.

In gaining your trust we will set a meeting and discussion besides give a consultation to strengthen your financial performance.
